Subject: S/019/018 - Sureshot status - USFS

Today I spoke with Rusty Lee, USFS, Manti-La Sal National Forest, Monticello Ranger District 435-587-2041, about Phil Gramlich's Sureshot site. Rusty has just recommended final bond release from their District office for this site. The USFS was holding on to \$700 for reseeding. The site was reclaimed in 1996, but it required some rework which took place in 1997. The forest service recently reclaimed the access road as part of an exchange agreement set up with Mr. Gramlich about 8 years ago.

Rusty was in agreement with the Division closing out this file.
